Executive Secretary, Ohio Board of Dietetics

I. HISTORY AND ORGANIZATION

The five-member Ohio Board of Dietetics was created by Am. Sub. H.B, 570 of the 116th General Assembly and began operations July 1, 1987. The function of the Board is to regulate the profession of dietetics in the State of Ohio pursuant to Chapter 4759 of the Ohio Revised Code.

MISSION STATEMENT

Mission – “The mission of the Ohio Board of Dietetics is to effectively protect the public by regulating the practice of dietetics through licensure, and by fairly and consistently enforcing the laws and rules governing nutritional practices.”

Vision – “The vision of the Ohio Board of Dietetics is to be recognized and respected as protecting the nutritional health of Ohio citizens by providing efficient and effective licensure of dietitians; enforcing applicable laws, rules and practice standards; and supporting professional ethics and competency in order to assure the provision of scientifically based nutritional practice.”

SCOPE OF PRACTICE

Ohio has enacted a mandatory licensure law requiring everyone who practices dietetics as defined in the law to be licensed, unless specifically exempted. “The practice of dietetics” means any of the following, as specified in Section 4759.01 (A) of the Revised Code:

- 1) Nutritional assessment to determine nutritional needs and to recommend appropriate nutritional intake, including enteral and parenteral nutrition;
- 2) Nutritional counseling or education as components of preventative, curative and restorative health care;
- 3) Development, administration, evaluation, and consultation regarding nutritional care standards.

BOARD MEMBERS AND MEETINGS

Board members are appointed by the Governor for five-year terms. The Board is comprised of three dietitians, one public member, and one dietetic educator who holds a doctoral degree. The Board usually holds six regular meetings per year, and holds sub-committee or other meetings as needed. Meetings are usually held in the Vern Riffe Center in Columbus and are open to the public. In FY 2013 the Board held six regular meetings, 6 case review committee meetings, 6 rules committee meetings, 2 rules hearings, 6 Education committee meetings and 6 application review committee meetings. There were no Notices of Opportunity for Hearing issued and no Administrative hearings.

Board members are paid an hourly rate for the performance of official Board business. This rate is established by the General Assembly and currently is \$19.55 per hour. The Board member’s

initial appointment date determines the hourly rate. Additionally, all Board members are reimbursed at the state per diem rate for travel, and miscellaneous expenses. Board members may also purchase health, vision, and dental insurance as a benefit of their employment.

Ohio Dietetic Association Liaison:

Patricia McKnight

Staff:

Administrative Staff includes: one Director (Executive Secretary), one Compliance Specialist (Program Administrator 2/ Investigator), and one Secretary (Administrative Professional 1). These are full-time equivalent positions. In addition, one intermittent clerical position assists with licensure renewal activities (budgeted at 1,000 hr. / yr.). Hearing officers, court reporters and additional clerical services are contracted on a temporary basis as needed.

FY 2013 Staff:

Tamara Spencer – Administrative Professional 1/Secretary
Donald Davis – Program Administrator 2/Compliance Specialist
Karen Dion – Executive Secretary /Director

Over 3,700 dietitian licenses were issued during FY 2013, which includes renewed licenses, initial licenses, Limited Permits, and licenses that were reactivated or reinstated. Licensees must meet minimum academic requirements, complete a pre-professional experience and pass a licensure examination. Continuing education is required for license renewal.

II. FY 2013 HIGHLIGHTS

COOPERATION WITH GOVERNMENT AGENCIES & PROFESSIONAL ASSOCIATIONS

It is the Board's general philosophy to educate and inform the public regarding the dietitian licensure law, which promotes compliance with the law.

National activities:

- 1) Ms. Dion attended, on behalf of the Board, the Council on Licensure, Enforcement and Regulation (CLEAR) annual conference. CLEAR provides a variety of presentations and knowledgeable speakers about licensure and related trends, challenges and best practices. Its membership includes individuals world-wide.
- 2) Ms. Dion attended, on behalf of the Board, the Food and Nutrition Conference and Exposition sponsored by the Academy of Nutrition and Dietetics (formerly the American Dietetic Association). This is held annually for dietitians and provides the latest nutrition science information and access to the top experts.

Ohio Activities:

- 1) The Board and staff continue to respond to the activities of unlicensed alternative practitioners related to the development of legislation that could remove much of the Board's authority, and would allow the unregulated practice of nutrition and dietetics by individuals who could practice without meeting any educational or pre-professional practice requirements. Since FY 2000, numerous versions of bills have been introduced by proponents who do not meet the requirements of the licensed professions in Ohio, and who appear to be seeking removal of the regulatory oversight of medicine, allied medicine specialties and nutrition practices.

The first priority of the board continues to be the health and safety of the citizens of Ohio by regulating the practice of dietetics. Therefore, it is anticipated that continued efforts and agency resources may be necessary to preserve the integrity of the dietetic practice act and the regulatory oversight of medical nutrition therapy practices.

- 2) The Board continues to work closely with the Boards and Commissions Management Group. The group addresses common issues and processes that impact the regulatory agencies, shares information that improves the individual agencies, and aids in communication with key government and legislative entities.
- 3) The Board collaborated with the Ohio Dietetic Association in sponsoring the 23rd Annual Legislative Conference for dietetic practitioners on April 17, 2013 at the Vern Riffe Center. The conference was an excellent opportunity for the dietitians, and dietetic technicians to learn about nutrition related legislation and issues, and to network with legislators and legislative staff. Another program, "The 5th Annual Legislative and Public Policy Day" was held on October 23, 2012 for students and dietetic interns to expose them to the importance of politics, legislation, and the regulatory structure in their work as dietetic practitioners. The agenda included a one-hour presentation on licensure, presented by the Board. This minimized travel costs for the Board, as many programs invite a representative from the Board to present the same information on-site throughout the year.

Agency Activities:

- 1) The Ohio Board of Dietetics completed its second year of processing renewal applications on-line. There were several communications sent to inform and prepare licensees for the renewal closing date. About 95% of licensees renewed their license on-line which was an increase of approximately 20% from 2012. The vast majority of the licensees were satisfied with the on-line renewal process. All constructive comments will be considered for future updates.
- 2) The Ohio Board of Dietetics updated its website in accordance with Executive Order 2012-06K to provide information regarding human trafficking. The Board published the OBD Communiqué once in FY 2013 which updated licensees about the on-line licensure renewal process, Board member appointments, jurisprudence programs and enforcement statistics. Since FY 2011, the OBD Communiqué is sent only via email and no printing or mailing costs were expended for this matter. The OBD Communiqué is also available on the website. Several other communications were sent to licensees in regards to the Five Year Rule Review and small business information from the Governor's Office.
- 3) Staff continue to provide presentations on licensure, regulation, and enforcement to Ohio dietetic programs, dietetic technician programs, and to professionals working in the field. In FY 2013 staff spoke to 21 facilities throughout the state including undergraduate dietetic programs, dietetic internship programs, dietetic technician programs, clinical dietitians at various hospitals and food service management dietitians. Additional presentations were given at the ODA Legislative workshop, the ODA Legislation and

Public Policy Day for students and interns. These presentations reached over 500 individuals.
